TEATRO FABBRICHINO

## Workshop **AGRUPACIÓN SEÑOR SERRANO** **VIDEO STAGE DRAMATURGY**

Masterclass by Agrupación Señor Serrano

This masterclass is intended to be an introduction to staging using digital devices through the work of the theatre company Agrupación Señor Serrano. The masterclass is articulated from a practical exercise that each participant will carry on with their smartphone. Through this exercise, the company will present its trajectory and working methodology in relation to the use of video on stage. How does the intensive use of video on stage influence dramaturgy? What is the function of creating a code in a dramaturgy? What are the scenographic potentials of a video camera, screen or smartphone? What is the role of audiovisual dramaturgy and how does it relate to the different elements of the staging process? What are the possibilities of dramaturgical development divided into creation / presentation phases? What are the implications of multi-layered dramaturgy? The session will conclude with a case study, an in-depth reflection on Señor Serrano's creation process.

**C** The workshop is addresses to directors, writers, actresses and actors, set designers, video programmers, spectators, cooks, firemen, doctors, pilots and ordinary people in general.
